PROFESSIONAL SUMMARY

Computer Programming and Analysis student at George Brown College with a strong foundation in full stack development. Experienced in building web applications using modern technologies including MERN stack and ASP.NET, along with knowledge of mobile development and backend systems. Demonstrated ability to work in fast-paced environments, collaborate effectively in teams, and solve problems efficiently. Passionate about developing scalable applications and continuously improving technical skills.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, React

Backend: Node.js, Express.js, ASP.NET, REST API Development

Database: MongoDB, SQL

Programming Languages: JavaScript, Java, C#, Python

Mobile Development: Android Development, iOS Development (Swift basics)

Tools & Technologies: Git, GitHub, Docker, JSON

Concepts: Full Stack Development, MERN Stack, MVC Architecture, API Integration, Responsive Design

PROJECTS

ABC Restaurant HCM (Capstone Project)

- Developed a full stack Human Capital Management system for restaurant operations
- Implemented scheduling, payroll, employee workflows, and notification features
- Worked on backend logic, database design, and frontend integration
- Collaborated in a team environment following the software development lifecycle

Full Stack & Web Development Projects

- Built full stack applications using the MERN stack (MongoDB, Express.js, React, Node.js)
- Developed web applications using ASP.NET and deployed them to a hosting environment
- Integrated REST APIs and handled data exchange between frontend and backend systems
- Implemented CRUD operations, routing, and data management features

Mobile Application Development

- Developed Android and iOS applications as part of academic coursework
 - Designed UI components and navigation flows
 - Gained experience in mobile development concepts and cross-platform design
-

EXPERIENCE

Cashier & Stock Associate

Bulk Barn, Ontario

November 2024 – Present

- Process customer transactions efficiently using POS systems
- Provide customer support, product recommendations, and resolve inquiries
